Oskar Medal Solution by George Miller & Oskar van Deventer

June 10th, 2003 (revisited June 23rd, 2011)

To take apart the Oskar Medal puzzle, hold the puzzle with the gold disk up and the logo/text is upright facing you. The silver disk will be on the bottom. Follow the 55 take-apart steps below.

To put the puzzle back together again, stack the disks such that the silver disk is on the bottom with the logo/text upside-down. The dark split disks are on top of the silver disk with the title facing you. Finally, the gold disk is on top with the logo/text upside-down. Now follow the 55 put-together steps below.

Take apart ↓			
	S	⇒ G	\Leftarrow
S	\Rightarrow	G	S
\Rightarrow	G	$\Leftarrow \mid \Rightarrow$	$ \rightarrow$
S	\Rightarrow	G	$\stackrel{ \rightarrow}{S}$
\Rightarrow	$\begin{array}{c} \cong \\ G \\ \cong \\ S \\ \stackrel{\sqcup}{\subseteq} \\ G \end{array}$		\Rightarrow
\Rightarrow	←	\Leftarrow	\Rightarrow
G	G	G	G
⇐	\Rightarrow	S	\Rightarrow
G ⇐ G	S	←	⇒ G
\Leftarrow	S ← S	G S \sqsubseteq G \sqsubseteq S	\Leftarrow
S	S	←	$\Leftarrow \mid \Rightarrow$

G means rotate the gold disk as far as you can.	⇒ ← means push the right disk and the left disk as far inward as you can.	→ means move the right disk only halfway outward.
S means rotate the silver disk as far as you can.	⇒ means move the right disk as far outward as you can.	← means move the left disk as far outward as you can.
		⇒ means move the left disk as far inward as you can.
